## PROJECTS

### Guvi Zen Class Dashboard — Build using React and Node.js DB - MongoDB

Few months ago I completed my Full-Stack Development course in Guvi. During my course process I would have completed my Capstone Project for Guvi Zen Class website using frontend - **React**, backend - **Node.js** and database - **MongoDB**.

#### Project Deployment URL :

<https://6614a9a65c08014af2c40c0d--friendly-caramel-437c98.netlify.app/>

In this Website you can create an account with your email and sign in and then you can see the web site components.
